Measurements:

- Basic White and Fresh Freesia card stock: each 2.5" to cut tag
- Soft Succulent card stock: small scrap to emboss sentiment
- Soft Succulent ribbon: 24"

Instructions:

1. Rub embossing buddy over the front of a flat brown lunch bag. Stamp large flower images along the bottom of the bag in white ink, then sprinkle white embossing powder over the stamped images. Shake off excess powder and heat with heat tool.
2. Stamp sentiment on Soft Succulent card stock using white ink and emboss with white embossing powder. Cut out around words.
3. Stamp small flower image and bee on white card stock with Memento black ink pad. Fill in flower with flower "filler" stamp and Fresh Freesia ink, leaf "filler" with Soft Succulent ink and center of flower and bee with Pale Papaya ink.
4. Cut out around the flower and bee with circle die, leaving flower to one side of the circle.
5. Cut larger scallop circle from Fresh Freesia card stock.
6. Adhere white circle over Freesia scallop circle, attach sentiment and punch a hole at the top of the tag.

7. Put gift into bag, then start at the top of the bag and accordion fold from top down almost halfway. Wrap ribbon around the bag and over the accordion fold and tie tightly. Pull the two top corners together in the middle, creating a fan and staple or adhere together at the top.
8. Add the tag and tie a bow.
